

CITATIONS FOR OUTSTANDING CONTRIBUTIONS TO STUDENT LEARNING

Associate Professor Jane Mills

School of Nursing, Midwifery and Nutrition

TITLE

For inspiring student nurses and midwives to understand and use research findings, developing confident clinicians who integrate evidence into their everyday practice.

ABSTRACT

As a scholar I weave together research, teaching, learning and service in an integrated program of work for students that values and promotes the concept of 'evidence for practice'. I have gained international, national, institutional, peer and community recognition for my command of the field, teaching research and evidence-based practice to student nurses and midwives.
